**CMRL Honored with Two Global Greentech Environmental and Sustainability Awards 2025**

Chennai Metro Rail Limited (CMRL) has been honored with two prestigious Global GreenTech Environmental and Sustainability Awards 2025 by the Greentech Foundation for its outstanding achievements in the categories of Gender Equality and Environmental Protection.

The awards were presented at the Environmental and Sustainability Summit 2025, held in New Delhi, in the presence of distinguished audience. The recognition includes a trophy and a citation, celebrating CMRL's exceptional contributions to sustainable urban transport and inclusive workplace practices.

The trophy, awarded at the Environmental and Sustainability Summit 2025, was ceremoniously handed over to Thiru M. A. Siddique, I.A.S., Managing Director, CMRL, in the esteemed presence of Thiru T. Archunan, IRSE., Director (Projects), Thiru S. Krishnamoorthy, IRAS., Director (Finance), Dr. Rajeev K. Srivastava, IFS (Retd.), Chief Advisor (Environment & Gender), Tmt. S. Rajalakshmi, AGM (Designs), Thiru. Saravana Kumar R, Manager (Environment) were present during the occasion.

**A proud moment for CMRL on receiving the Gender Equality Award for the first time.**

This Global Award highlights the outstanding organizations, leaders and their teams who are driving change and helping to build a better future for all. This award represents CMRL's recognition and outstanding commitment to Gender Equality and Environmental Protection. CMRL has consistently promoted inclusive workplace policies, ensuring equal opportunities in recruitment, training, leadership roles, and workplace safety for all genders.

In addition, CMRL has demonstrated a strong commitment to environmental protection by improving the management of natural resources, adopting effective climate change mitigation measures, and raising awareness about emerging environmental challenges. These efforts reflect CMRL's holistic approach to building a sustainable and inclusive urban transport system. CMRL's key achievements include improved energy efficiency, water management, and reduced carbon emissions, contributing to lower operational costs and climate change mitigation during construction and operational phase of the project.

Through these efforts, CMRL has set a benchmark for gender equality and sustainable urban transportation, ensuring a safe, fast, reliable, comfortable, and environmentally responsible commuting experience for the citizens of Chennai. This recognition reaffirms CMRL's leadership and excellence in integrating environmental consciousness into every aspect of its operation and infrastructure development. The Managing Director congratulated the team for their dedicated efforts and encouraged them to continue striving for excellence in all future endeavors.
